

At **Poppins International Pre-School** we offer a unique curriculum giving children from 12 months, an opportunity to engage in a variety of activities and learning experiences in a safe and secure setting. Children spend portions of the day working and playing together in a mixed age group and are separated into specific groups for circle times and focused activities. Our curriculum is based on the British Foundation Stage Profile but also incorporates influences from Montessori, Reggio Emilia and the rich teaching backgrounds of our diverse team of teachers.

In addition to our regular programme we also offer extended day programmes, seasonal programmes, regular school events, celebrations and family outings making Poppins International Pre-School a fun and holistic first school experience for young children!

Poppins Corporation, established in 1987 by Noriko Nakamura, has already forged a solid reputation in Japan for its Nanny Training Programmes and Nursery Schools. From the onset, its mission has been to deliver the highest and most convenient service to busy, yet concerned parents. It is with this same regard for quality that Poppins will conduct its International Pre-School.
